About the 360 Report

The 360 Report is published quarterly to provide CYFD management, staff, external partners and stakeholders with data related to:

- Reports of child abuse and neglect;
- Investigations of child abuse and neglect;
- Substantiated child abuse and neglect;
- Permanency plans for children in custody;
- Number of children and youth in foster care;

And other measures of child safety, permanency, and well being.

Data in this report can be used to inform New Mexicans of trends in a particular area and where support may be needed. Data can also indicate positive outcomes in an aspect of the system in a particular county or region. The 360 Report is a tool that can bring science to inform the prevention and treatment process.

About the Data

Data for the County Profiles are prepared through the collaborative efforts of the Data Evaluation Unit and FACTS Unit within CYFD’s Research, Assessment and Data Bureau, and Information Technology Services. Additional assistance and guidance is provided by the US Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children’s Bureau.

About Protective Services

Protective Services strives to enhance the safety, permanency, and well being of children and families in New Mexico.

Protective Services workers investigate reports of child maltreatment and intervene to keep New Mexico’s children safe. We provide foster care to approximately 2,500 children each day and work with families to enable parents to safely care for their children. When that cannot be accomplished, Protective Services finds safe, permanent families for children through adoption or permanent guardianship.

Protective Services also works with youth emancipating from the foster care system to help them successfully transition into adulthood.

MISSION: IMPROVING THE QUALITY OF LIFE FOR OUR CHILDREN

All of New Mexico’s children are our priority. We work to make sure that every child is safe from abuse and neglect. We also work to strengthen families so that they are safe, healthy, and resilient.

For every child involved with Protective Services, we track his or her progress through our FACTS data system. This report focuses on families involved with PS, and children in foster care.

The data in this section provide an overview of all children and families in New Mexico.

Children in New Mexico: 511,806*
