CYFD believes in the strengths and resiliency of families who are our partners and for whom we advocate to enhance their safety and well-being. Juvenile Community Corrections Manual Overview

The Children, Youth and Families Department is committed to funding services that produce positive, effective, measurable outcomes and results for the children, youth and families served. The Children, Youth and Families Department is currently instituting methods to collect and analyze information on improvements of client functioning, client satisfaction with services and system-wide improvements to service delivery.

The purpose of the Juvenile Community Corrections (JCC) Program Manual is to describe and define the standards and guidelines for the JCC program sites funded through the Juvenile Justice Services (JJS) Division of the Children, Youth and Families Department (CYFD). Upon reading the manual, you will also discover that the CYFD JCC Program Manager intends to develop and maintain a close working relationship with the contractor to ensure that roles and responsibilities are clearly defined and maintained without jeopardizing the effectiveness of services for clients.

Program Description

The JCC program is a unique approach to working with adjudicated delinquent youth. The program utilizes a team approach which includes the client, family, contracted agency, local public schools staff, Juvenile Probation Officers and other significant individuals in the client’s life. The program provides participants with program services based on the client’s individualized needs.

Goals

The JCC program sites will meet the following goals:

1. Conduct Casey Life Skills Assessments to identify the individualized needs of the clients and develop a Service Plan for those areas that have been identified in conjunction with the requirements from the Juvenile Probation Officer.
2. Divert adjudicated youth from incarceration.
3. Provide services to assist incarcerated youth transitioning back into the community.
4. Provide services and interventions for clients including community service and/or reasonable restitution to society and victims.
5. Provide individualized services for the client and family.
6. Implement an integrated data system and an evaluation mechanism that measures program utilization and effectiveness.
**Desired Client Outcomes**

The array of service components within the JCC Program Manual is designed to address specific impacts or benefits known as “*performance outcomes*” for the specific target population of clients. Specific performance measures are mandated as standard uniform indicators to be used to assess the quality and success of the program as a result of the services provided.

The performance outcomes CYFD would like to see for the clients as a result of their participation in JCC are as follows:

1. Decreased involvement or termination of involvement with the Juvenile Justice System
2. Improved client competencies in social, living, coping and thinking skills
3. Improved academic performance
4. Improved client behavior at home and in the community
5. At least seventy five (75) percent of the clients will successfully complete the JCC Program
6. At least seventy-five (75) percent of clients are satisfied with the JCC Program’s services.

All forms will be signed and dated by the client, parent/legal guardian, and JCC Case Manager. All documents must be completely filled out and signed by all parties listed within the document as they are legal binding agreements.

**Casey Life Skills Assessment**

The Casey Life Skills Assessment was chosen by CYFD as the mandatory assessment to be administered twice to all clients who participate in the JCC Program. The assessment will be completed at the beginning of the JCC program and within the last month of the client’s participation in the JCC program. Once the JCC Agency intake paperwork has been completed the JCC Case Manager will schedule time within thirty (30) days for the client to complete the Casey Life Skills Assessment and Client Service Plan.

JCC Case Managers will be trained in the use of the Casey Assessment and how to navigate the website: [www.caseylifeskills.force.com](http://www.caseylifeskills.force.com)
Casey Process Overview for JCC Case Managers

Step 1: As best practice for an accurate assessment, the Case Manager will wait thirty (30) days after the intake interview to administer the initial Casey Assessment.

Step 2: After the client completes the Casey Assessment, the Case Manager will review the results with the client and have a conversation about what types of goals the client feels that they would like to accomplish while participating in the JCC Program.

Step 3: The Case Manager will gather information from all the following documents: Juvenile Probation Plan of Care, Baseline Assessment, Baseline Questionnaire, the Local Selection Panel recommendations and the Casey Assessment to assess what are the most common services that the client will need to address within their service plan.

Step 4: The Case Manager will sit down with the client and create an individualized JCC Service Plan to be shared with the Juvenile Probation Officer.

- A pre and post Casey Assessment of the client provides the Agency with evidence of growth in self-esteem and knowledge with regards to core life skill domains they have been working on while the client participates in the JCC Program.
- For further detailed information about the Casey Life Skills Assessment please log on to the website and print out the Casey Life Skills help guide.

Service Plan

The Service Plan is a written agreement between the client, family, and JCC Case Manager. The Service Plan components are coordinated with the Juvenile Probation Officer and Facility Staff recommendations. The Service Plan describes the types of services that will be provided, the client’s goals, objectives, interventions and time frames for completion of the goals.

The client’s Service Plan will be documented on the CYFD Service Plan Form and will take into account the recommendations of the following documents:

- Casey Life Skills Assessment
- The Juvenile Probation Plan of Care
- Baseline Assessment or Baseline Questionnaire
- Local Selection Panel Recommendations
- Client input
- The Service Plan will also include a discharge plan for the client. The client’s discharge plan may be modified at each review to reflect the client’s needs at the time of discharge.
Service Plan Review

Once the initial Service Plan is written, the JCC Case Manager will review the Service Plan **every ninety (90) days** to determine client progress and make any necessary adjustments to the plan.

- Service Plans shall be client driven and the action items listed on the Service Plan form must be determined by the clients. Clients are more likely to participate in their plans when they are part of the process.
- A Case Manager/Life Skill Coach must begin to think about the discharge plan for the client at the time of their acceptance into the JCC program.
JCC Agency Case Staffing Meetings with JPO

Participation in the JCC program involves mandatory meetings to assist and direct the client to a successful completion of their service plan and probation term.

The following participants will attend **mandatory case staffing meetings** that are conducted no more than once a month and at least every other month:

- JCC Case Manager
- Client
- Parents/Guardians
- Juvenile Probation Officer
- Additional Individuals relevant to clients Service Plan (needs approval from JCC Case Manager)

During each Case Staffing meeting that takes place it is important for the JCC Case Manager to keep in mind the CYFD desired client outcomes and to discuss them with the participants:

- Client has decreased his/her involvement with the Juvenile Justice System
- Client has made improvements in social, living, coping, or thinking skills as identified in the Service Plan
- Client has made improvements in academic performance as identified in the Service Plan
- Client has improved behavior at home and in the community as identified in the Service Plan

**Important**

- JCC can schedule all required appointments with the JPO as soon as the client enters the program (Some Agencies use a calendar or excel sheet for a reminder of Case Staffing Meetings.)
- The client and family understands the Case Manager keeps in close contact with the Probation Officer regarding the client’s progress (If the client is not following directions in JCC this would be a good time for the Probation Officer to take on the “Enforcer” role so the client/family understands that completing the JCC Program is important).
- The family gets to participate in the process and further understands the purpose of JCC programming.
- It is a good time for the JCC Agency to share the information from the client’s Monthly Report, Service Plan and 90 Day Service Review Plan.
Supervisor Reviews

The JCC Agency Director (or designated Supervisor) must review all active client files every ninety (90) days. The purpose of the review is to determine if the client file is up to date with all relevant JCC paperwork.

Supervisor Review

- The JCC Agency Director/Supervisor will provide feedback to the JCC Case Manager regarding the status of each client file.

- The JCC Agency Director/Supervisor will sign off on the Supervisor Review Form indicating whether or not the client file is in satisfactory condition and to identify any corrective actions necessary for the JCC Case Manager to bring the file into compliance.

- The evaluation/checklist will be placed in the client file and made available for the CYFD Audits.
Monthly Reporting to Juvenile Probation Officer

As per the JCC contract, the JCC Case Manager will provide a monthly progress report, **no later than the 10th of each month** for the previous month’s services to the client.

---

**Monthly Report Details (see sample on next page)**

- The Case Manager can easily check off the services they are providing to the client.

- The Case Manager can provide information on the client’s community service hours and placement.

- The Case Manager can easily provide information on what life skills items they have worked on with the client during the month.

- In the general comments area this is the JCC Case Managers time to “shine” and tell the Probation Officer all the major items they have worked on for the month with the client.

- This document could potentially become a legal document and requested by a Judge and so JCC Case Managers should complete all areas in the report, in a clear concise manner.

- The Case Manager can also state in the monthly report if there is any significant disciplinary action, health and safety issues, rules violation, or action involving liability on behalf of the client.

---

**Monthly Report General Comments Example:**

**General Comments on each Service Component:** Hector has been participating in the JCC Program with a positive attitude and has been attending individual life skills sessions with JCC Case Manager Leon this month to work on his educational goals. Hector has returned to Artesia High School after his brief suspension last week and I (Leon) have been told by the staff that he is now complying with the school rules. Hector and I (Leon) are currently working on making up the school work he missed as a result of his suspension and I will continue to tutor him on his algebra curriculum for the next two months.

Hector is currently attending therapy sessions one time a week at The Family Counseling Services in Roswell.
This month I (Leon) met with Hector’s mother and she stated that Hector went to visit his father in Deming during spring break and Hector came back home with a better attitude and has displayed positive behavior in the home.

The importance of a completing a monthly report for a Juvenile Probation Officer

- CYFD Juvenile Probation Officers often depend on the reports to provide information to the Judge on how the client is doing in the community. (This is done either verbally or actual copies of the monthly reports are provided to the Judge)

- CYFD Juvenile Probation Officers can look at the progress the client is making in the program which in turn may shorten the client’s probation term if they are performing well in the community.
Case Notation and File Maintenance

All communication and contacts with the client, family, service providers, and collateral contacts are documented in a progress note and maintained in the client file.

Documentation shall consist of the following:

- Who was present, including staff
- Date of contact
- Time of contact
- Type of contact (face to face, telephonic, e-mail, etc.)
- Location of contact (home, school, JCC office, etc.)
- Nature of contact (who, what, where, when and why)
- Outcome of the contact and relevance to the goals in the client’s Service Plan

Sample Progress Notes

Example 1:

1/15/15 10:30-11:30 AM: Case Manager Jones met with client, parent, and counselor at Frost Middle School to discuss what is needed for client to be re-enrolled in school. Client had been long term suspended last semester for attendance and behavior issues. School agreed to re-enroll client with conditions that were outlined on a school contract form. Client’s first day back in school will be 1/18/15 and we will continue to work on the client’s educational goals outlined in the service plan

(Include signature of staff).

Example 2:

Name: Case Manager
Beginning Time: 12:00 PM  End Time: 1:30 PM
Date: 12/20/15  Type of Contact: Face to Face
Location: School  Contact Persons: school staff, father and client

Narrative Description: JCC Case Manager attended clients IEP today. The client’s poor academic progress since January was reviewed during the IEP with the intent of developing a plan to salvage client’s remaining grades in the next few weeks in school. One problem the Case Manager has been able to assess as contributor to the situation was the parents were not
informed of the client’s daily homework load. JCC Case Manager proposed doing a daily report form that could be taken to each class and then brought home to parents at the end of the day with the understanding that no social or recreational activities would be permitted until the homework was done. Client was less than thrilled about the plan but everyone else agreed that these steps would assist the client with the current situation. JCC Case Manager made a number of suggestions throughout the meeting to place the emphasis on what client needs to do to meet his responsibilities rather than looking at how adults can accommodate him. The client’s father was noticeably more invested in client assuming responsibility during this meeting in contrast to the last IEP as a result of the new assignment of tasks in this discussion. When the IEP was over, JCC Case Manager returned to the office and developed the daily report in line with the discussion from the IEP. JCC Case Manager returned to the school and met with the client’s school teaches to introduce and familiarize them with the daily report form.

Example 3:

Name: Case Manager                                   Beginning Time: 2:00 PM  End Time: 3:00 PM
Date: 12/15/15                                          Type of Contact: Face to Face and Telephonic
Location: Office and JPO Office                        Contact Persons: Mom and JPO Supervisor

Narrative Description: I received a call from Andrew’s mother today asking if I could help her son find money to pay for the cost of a GED exam he will be taking soon as the family cannot afford the fee right now. I asked his mother for more details on when the money is due and the cost of the exam so I can start the financial assistance paperwork and process for payment. I told the mother I would call her back once I get all the paperwork squared away and the GED fee paid for. I drafted the Financial Assistance document, took it to the local Probation Officer for signature and took the check cut by our Agency to the local GED testing site and paid the fee for the Andrew to take the GED exam. I then called the mother back to let her know that everything has been paid for and Andrew is set up to take the exam.

Discharge Details

- The final JCC case staffing meeting is designed to support discharge planning via a team approach involving JCC, client/family and the Juvenile Probation Officer.

- The series of case staffing meetings are intended to review client progress and to identify discharge supports in the community and to decrease the client and families involvement in the juvenile justice system.

- At the end of programming a Discharge Summary Form is completed by the JCC Case Manager with a copy submitted to the Juvenile Probation Officer and a copy maintained in the JCC Client File.
Guidelines for Determination of Discharge

- The contractor must ensure the survey process is conducted by a staff member other than the JCC Case Manager to ensure the clients anonymity.
- Client Satisfaction Surveys must be filed in a separate location from the client’s file and maintained by the Contractor and available during a CYFD audit.
- Client Satisfaction Surveys must be entered in EPICS.

Completion/Graduation Certificate

Upon completion of the Juvenile Community Corrections Program the successfully discharged clients should receive a copy of a CYFD “JCC Certificate of Completion”. The JCC Certificate of Completion finalizes their participation in the program and could assist with documentation for the courts regarding their successful Juvenile Community Correction program participation.
Quarterly and Final Reports

Each JCC Provider will be responsible for turning in a Quarterly Report to the JCC Program Manager on the 10th of the month of each quarter. The information collected is used by CYFD to get a better idea of the counties target population and service needs.

EPICS General Troubleshooting Contacts

For EPICS technical support issues email CYFD at cyfdepics.ccsjcc@state.nm.us

- An example of a technical support issue would be that EPICS web site is down, or you have encountered what appears to be a system “bug” when using EPICS. Use the same return email address that you supplied when you filled out the External Request for EPICS form.
- Include EPICS in the email’s subject.
- Include your agencies full name and your name in the body of the email.
- A screen shot of the EPICS problem with a description to cyfdepics.ccsjcc@state.nm.us

When adding or removing EPICS user accounts complete the External Request Form for EPICS then attach the completed word document(s) and email the completed document(s) to the EPICS mail box at cyfdepics.ccsjcc@state.nm.us

- You must submit the original External Request Form for EPICS in PDF format scanned faxed or hand written copies of this document will be rejected.

If you have any EPICS data entry questions call (505) 660-3405 your CYFD Program Manager.

If you have service definition manual questions contact your CYFD Program Manager.

For payment related questions contact your CYFD Program Manager.

EPICS User Account General Information

1. After 3 failed login attempts your EPICS user account will be locked out and you will need to email the cyfdepics.ccsjcc@state.nm.us address requesting to have your EPICS user account reset.
2. If you have not used your EPICS user account for 90 or more days, your EPICS user account will be deactivated. To reactivate your account you will need to email the
cyfdepics.ccsjcc@state.nm.us address requesting reactivation of your EPICS user account.

3. If you need to deactivate an EPICS user account email the EPICS External Request Form for EPICS PDF document to the EPICS mail box, with the “Remove EPICS access” check box checked off. This must be done whenever an EPICS user leaves terminates employment with your agency. An EPICS user with “EPICS Agency Program Director” rights can deactivate an EPICS user account within your agency by going to the “Setup” menu.

4. When filling out the External Request Form for EPICS pdf document you should only check off the “EPICS Agency Program Director” box for those users who need administrative rights to EPICS. An EPICS user with “EPICS Agency Program Director” rights can deactivate EPICS user accounts from the “Setup” menu, so this must be only be assigned on an as needed basis. If you have assigned an EPICS user Program Director rights when they should not have EPICS Program Director rights, email the completed External Request for EPICS pdf document, to the EPICS e-mail, with the “Modify account info” check box checked off. Only check off the appropriate user permissions that this EPICS user will need and leave the “EPICS Program Director” check box unchecked.

EPICS General Website Information

1. In order to have the best EPICS user experience you need to have a high speed internet connection rated at 1.5 megabits or faster. The use of a Dial up internet connections for EPICS access is highly discouraged.

2. As EPICS is an internet application EPICS can be accessed from anywhere an internet connection is available. As connections to EPICS from specific locations cannot be blocked, agencies may wish to devolve their own internal access policies governing where and/or when EPICS users may, or may not access EPICS.

Transportation Services

Introduction: The purpose of this component is to assist the client with getting to and from scheduled appointments or delivery of service outside of city limits, when necessary. Also, this component allows for JCC Agency Staff to bill for trips made to any Juvenile Correctional Facility to work with a JCC client.

Core requirements for Case Managers for transportation services:

- Transportation of a client may be provided only when necessary.
- Documentation of the need for transportation must be noted in the client file.
- The JCC Agency can be reimbursed for mileage when a JCC staff member travels to a CYFD facility (e.g. YDDC, JPTC) to meet with a client or attend a multi-disciplinary team meeting.

What a CYFD Auditor and Agency Supervisor expects to see in the client files when billing for transportation services:

- Name of client who was transported
- Location where client was taken
- Reason for transporting
- Amount of time it took to transport
- The mileage from the Agency to the CYFD Facility when providing services to a client who is in a CYFD Facility.
