Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

PREA America LLC was retained on April 12, 2017 to perform the John Paul Taylor Center (JPTC) PREA Audit. The State of New Mexico Children, Youth and Families Department Juvenile Justice Services Bureau Chief of Performance and Policy, Greg Nelson; CYFD Contract Specialist, Gabe Salazar; and CYFD JJS PREA Coordinator, Eugene Brewster, facilitated the process. Notices of the on-site audit went up by September 21, and the Pre-Audit Questionnaire with supporting documentation was received by the audit team by October 19. There were telephone calls and emails to clarify materials sent and to establish the itinerary of the onsite audit.

The on-site audit was conducted as planned, November 3. PREA America Auditor Will Weir and Project Manager Tom Kovach arrived at the facility and met with Agency PREA Coordinator Eugene Brewster, CYFD JJS PREA Management Analyst Valerie Valverde, CYFD JJS Bureau Chief of Performance & Policy Greg Nelson, JPTC Staff Supervisor Robert Kelly, JPTC Acting Superintendent Perry Boyd, and JPTC PREA Compliance Manager Adam Chavez. Also arriving for the meeting was CYFD JJS Director Tamera Marcantel. After the brief meeting, and a facility tour, the audit team started interviews of staff and residents selected from rosters.

The audit team interviewed 7 random facility staff and also 9 specialized staff and the superintendent. This includes staff from all shifts. In addition, the team has interviewed PREA Coordinator Eugene Brewster, CYFD JJS Reintegration Superintendent Adam Cordova, CYFD JJS PREA Management Analyst Valerie Valverde, CYFD Juvenile Justice Services Director Tamera Marcantel, CYFD Inspector General Special Investigator Wendy Johnson, CYFD Contract Manager Maria Sanchez (by phone), CYFD Human Resources Director Lisa M. Fitting (by phone), and CYFD JJS Bureau Chief of Performance and Policy Greg Nelson. 12 random facility residents were interviewed, selected from each housing unit and from those who have been identified as vulnerable to abuse. This also included residents of racial and ethnic diversity. The audit team was impressed by the professionalism of the staff, the organizational skills of the administration, and the positive morale of the residents.

At the end of the on-site audit, an Exit Conference was held, attended by the same administrators present at the morning meeting, listed above. Director Marcantel had stayed for the day. The audit team expressed appreciation for her interest, work, and leadership regarding PREA implementation in New Mexico. Also, the team expressed appreciation for all the assistance provided throughout the day and the audit process. The group had an efficacious conversation regarding building on the strengths of the program, in keeping with the ideals of the agency and their commitment to Trauma-Informed Care. The few investigations they have had have been learning opportunities. Incident Reviews are completed within 10 days. They are increasing the posting and distribution of First Responder duties and the Coordinated Response duties. They are doing more to increase the understanding of advocacy. The agency and facility seem to be doing particularly well at PREA education of residents and the education and training of staff regarding searches, cross-gender supervision, and retaliation monitoring. They usually do screenings within 24 hours and always get them
done in 48 hours. Residents, including LGBTI residents, report that LGBTI residents are safe here, and not singled out. They report that staff intervene quickly and appropriately if teasing or other issues occur. Residents identify the accessibility of mental health services as a facility strength. They report having a case worker and a mentor, in addition to a mental health provider. Residents at JPTC generally seem comfortable reporting any concerns and feel staff will honor confidentiality and do the right things to protect them. Staff also, generally, have positive things to say about the facility and feel they are making a difference. Some staff report that the new cameras do not pan around like the previous cameras. They could supervise more efficiently if the new system could have this modification.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

CYFD’s Juvenile Justice Services/Facilities (JJS) has adopted the Cambiar, New Mexico, model, which shifts the focus from confinement and punishment to rehabilitation and regionalization. JJS continues to hold young people accountable, while providing for their rehabilitation and preparing them for healthy adulthood. JJS protects them from harm, and continues to provide for public safety. Major initiatives include: Developing smaller, secure regional facilities across the state. Creating smaller, safer and more nurturing living units/groups (therapeutic communities). Implementing youth-centered unit management and milieu therapy. Developing individualized service plans addressing carefully assessed needs, strengths, and risks. Staffing of facilities with Youth Care Specialists who receive training that provides them with security and therapeutic skill sets. Providing rich programming, including: Advocacy, Case Management, Counseling, Education, Mental Health, Parent Training, Physical Health, Placement, Recreation, Residential Treatment, Sex Offender Programming, Skills, Substance Abuse.

The John Paul Taylor Center (JPTC) is a relatively new facility, with an even newer education center, which was recently added on. The main administration building has several offices and a conference room, restrooms, storage rooms, and holding cells. These holding cells are not in use, except for storage. The control center is also in the admin building has a modern camera system that can be monitored or reviewed on multiple screens. Cameras can zoom and record.

There are four housing units: Mesquite, Saguaro, Ocotillo, and Agave. Each unit has a dozen single cells with a program office, dayroom, interview and multipurpose rooms, laundry, toilet and showers. While the design is the same, the decor varies in the housing units, in part a result of artistic contributions by the youth.

Outdoor open areas have gardens and greenhouses. There are also a warehouse and a separate kitchen and dining building. The modern education building is a recent addition to the campus, and is a source of pride. It has classrooms named for astronomical objects and is equipped with multimedia capacity. In addition to basic education, some career technology classes, such as shop, horticulture, and automotive, are included. There also are a library and administrative area.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

CYFD develops, documents, and makes its best efforts to comply with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against abuse. In calculating adequate staffing levels and determining the need for video monitoring, it takes into consideration: Generally accepted juvenile detention and residential practices; Any judicial findings of inadequacy; Any findings of inadequacy from Federal investigative agencies; Any findings of inadequacy from internal or external oversight bodies; All components of the facility’s physical plant (including “blind spots,” or areas where staff or residents may be isolated); The composition of the resident population; The number and placement of supervisory staff; Institutional programs occurring on a particular shift; Any applicable State or local laws, regulations, or standards; The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and Any other relevant factors. At least once every year, the agency, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to: the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with the staffing plan. Staffing plans, unannounced rounds logs, policies, and reviews were provided to the audit team for review. The average number of residents is 43. The staffing plan is based on 48. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The facility significantly exceeds Standards for the overnight shift, providing 1-to-12 staff to resident ratio when the
Standard requires a minimum of 1-to-16. Also, the Staffing Plan states, “In practice, the J. Paul Taylor Center (JPTC) will continue to exceed generally accepted secure facility practices by having additional roving staff regularly assigned to increase coverage facility-wide.” Documentation provided indicates this ratio has been in place since 2006.

Auditor Overall Compliance Determination

☐ Exceeds Standard (Substantially exceeds requirement of standards)

☒ Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

No cross-gender searches of any kind are permitted by CYFD, absent exigent circumstances, which must be documented. The facility does not conduct any kind of cross-gender searches of residents, except in exigent circumstances (which are fully documented and justified), or when performed by medical practitioners. According to interviews and documentation provided, none of these have been conducted in the past year. Residents shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Staff of the opposite gender announce their presence when entering a resident housing unit. Staff are forbidden from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident’s genital status. If the resident’s genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. The agency has trained security staff in how to conduct cross-gender pat-down searches in exigent circumstances, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least-intrusive manner possible, consistent with security needs. Interviews with residents indicated no concerns about any part of this standard being violated.

CYFD JJS policies (applying to all facilities) require close supervision, when needed by residents with developmental disabilities and serious mental health needs. These policies address identification of needs, and the provision of appropriate services, during intake and throughout the time the resident is in care. Also, specifically addressed is the provision of services for victims of sexual assault. 14.9.1-3 States: “The medical and psychological trauma of a sexual assault is minimized by prompt and appropriate health and behavioral health intervention. Victims of sexual assault are referred to the Sexual Assault Nurse Examiner (SANE) program for treatment and the gathering of evidence. Follow-up counseling at a community rape crisis center will be considered as part of the long-term treatment plan.” Interviews with staff and residents at JPTC indicate compliance with this standard and these policies.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

CYFD policy prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section. The Agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor who may have contact with residents. Policy requires that, before it hires any new employees who may have contact with residents, CYFD conducts criminal background record checks; consults any child abuse registry maintained by the Child Protective Services; and consistent with Federal, State, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. During the past 12 months, all staff who have been hired, who may have contact with residents, as well as volunteers, have had criminal background record checks. Exceeding standards, policy requires that ongoing background checks be conducted through CYFD’s RAP Back program, which notifies them of arrests and changes in criminal history record information in real time. The Agency policy states that material omissions regarding such
misconduct, or the provision of materially false information, will be grounds for termination. Unless prohibited by law, the agency will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee, upon receiving a request from an institutional employer for whom such employee has applied to work. Compliance with this standard was verified through a close reading of policy and other documentation provided, as well as a review of random personnel files pulled at the auditor’s request, and through interviews with administrators.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

CYFD only completes administrative investigations, not criminal ones. New Mexico State Police does criminal investigations. There were no forensic interviews performed or indicated in past 12 months. The auditor verified that the Rape Crisis Center of Central New Mexico is available 24/7, 365 days per year, providing advocacy whenever it is needed. CYFD has MOU’s with the Rape Crisis Center, and also with other organizations that provide similar services regionally. JPTC is served by La Piñon Sexual Assault Recovery Services (LPSARS) of Las Cruces. The auditor verified LPSARS services with Gretchen Bolsins, who answered the LPSARS 24-hour Crisis Hotline: 575-526-3437. The SANE Unit is located at the Las Cruces Memorial Medical Center. In addition to providing information about the rape crisis services with which CYFD has MOU’s, the agency provides a comprehensive list of such organizations throughout the state, that would likely provide services regardless of not having an MOU. Captain Dina L. Romero of the New Mexico State Police Training Academy provided a letter explaining that all State Police Officers attend a 22-week academy, in which they learn how to conduct criminal investigations. Academy classes include Sexual Assault Investigation, Crime Scene Processing/Evidence Preservation, Interview and Interrogation, and Internal Affairs. Topics covered in these classes include legal issues, cultural competency, trauma and victim response, medical and mental health care issues of sexual assault victims, first responder responsibilities, evidence collection/processing and preservation, interviews with victims and suspects, ensuring proper documentation, working with the District Attorneys and Victim Advocates, Miranda rights, and application of Garrity rights. When conducting a sexual abuse investigation, the investigators follow a uniform evidence protocol that is developmentally appropriate for youth and based on the most recent edition of the DOJ's Office on Violence Against Women publication, A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents, or similarly comprehensive and authoritative protocols developed after 2011. Forensic examinations are offered without financial cost to the victim and are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Abuse Nurse Examiners (SANEs). When SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. These procedures are well stated in the agency Coordinated Response plans and understood by the administrators and managers, who will assure proper care is provided to alleged victims.

JPTC residents receive information, at the time of intake, about the zero-tolerance policy, and how to report incidents or suspicions of sexual abuse or sexual harassment. The facility provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills. The agency also ensures that key information is continuously and readily available or visible to residents through posters, resident handbooks, or other written formats. All residents admitted during the past 12 months have received this information in an age-appropriate fashion, according to interviews and information provided. Many have received the information at previous placements, as well. The agency maintains documentation of resident participation in PREA education sessions, and this was provided to the auditor. The agency ensures that key information about the agency’s PREA policies is continuously and readily available or visible through posters, resident handbooks, or other written formats, as verified in interviews of staff and residents, and observed by the audit team during the facility tour.

CYFD does conduct its own administrative investigations, but it does not conduct its own criminal investigations. The State Police are identified officially as the Criminal Investigators for CYFD, although,
in some instances county or municipal law enforcement may be involved, as appropriate. The State Police and CYFD have agreements and training to help facilitate cooperation and efficient working relationships across the state. If law enforcement declines to investigate an allegation, it gets investigated administratively. There is a Special Investigator under the Inspector General for CYFD who is assigned to cases of staff-on-client misconduct. CYFD requires that investigators are trained in conducting sexual abuse investigations in confinement settings. Specialized training includes techniques for interviewing juvenile sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. Investigating agencies are required to maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations. Documentation was provided verifying that Investigators and several administrators completed NIC training: PREA: Investigating Sexual Abuse in a Confinement Setting. They also have training regarding working with and interviewing juvenile victims.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

JPTC has a policy that requires screening (upon admission to the facility or transfer from another facility) for risk of sexual abuse victimization or sexual abusiveness toward other residents. The policy requires that residents be screened for risk of sexual victimization or risk of sexually abusing other residents within 72 hours of their intake. Such assessments are conducted using an objective screening instrument. They attempt to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender-nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The resident’s own perception of vulnerability; and (11) Any other specific information about individual residents that may indicate heightened needs for supervision,
additional safety precautions, or separation from certain other residents. This information is ascertained through conversations with the resident during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's files. Controls are in place regarding the dissemination within the facility of responses to questions asked pursuant to this standard, in order to ensure that sensitive information is not exploited to the resident's detriment by staff or other residents. Interviews indicate that all residents are screened, and that the facility is reassessing regularly, and when a resident is high-risk, and when new information regarding risk factors comes to their attention. The audit team reviewed samples of screenings and reassessments.

JPTC uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments. The facility prohibits placing lesbian, gay, bisexual, transgender, or intersex residents in particular housing, bed, or other assignments solely on the basis of such identification or status. The facility prohibits considering lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The facility makes housing and program assignments for transgender or intersex residents in the facility on a case-by-case basis. The facility uses all information obtained pursuant to § 115.341 and subsequently to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse. Residents may be isolated from others only as a last resort when less
restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. Placement and programming assignments for each transgender or intersex resident is reassessed at least twice each year to review any threats to safety experienced by the resident. A transgender or intersex resident’s own views with respect to their own safety is given serious consideration. Transgender and intersex residents are given the opportunity to shower separately from other residents. Interviews indicate there are several LGBTI residents at the facility. Also, there is always an administrator (someone who has access to all screening and assessment information) on call for after-hours emergencies.

The agency has established procedures allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The facility provides at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the facility. There are no residents detained solely for civil immigration purposes at this time. The agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports “immediately”. The facility does provide residents with access to tools to make written reports of sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The agency has also established procedures for staff to privately report sexual abuse and sexual harassment of residents. Verification was provided that staff completed training on Resident Reporting. Posters state that anyone can report sexual abuse and provide the following options for reporting: Notify any trusted staff, call the JJS Confidential Reporting Line: 1-855-563-5065, contact the JJS PREA Coordinator at JJSPREA.Coordinator@state.nm.us, notify Medical or Behavioral Health (BH) Services, or write anonymous letter to PREA Reporting Office (POB 639; Las Cruces, NM 88004).

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility has an administrative procedure for dealing with resident grievances regarding sexual abuse. The facility policy allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. There is no time limit for a resident to submit a grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, nor otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. The facility's policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The facility's procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. Exceeding standards, CYFD has a policy that requires that all grievances be responded to within 5 days. Appeals are also responded to within 5 days. The facility policy permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Policy requires that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident’s decision to decline. Policy allows legal guardians of residents to file a
grievance, including appeals, on behalf of such resident, regardless of whether the resident agrees to having the grievance filed on their behalf. Emergencies are dealt with immediately. The agency has a policy that limits its ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith.

This discussion must also include corrective action recommendations where the facility does not meet the standard. The facility provides residents access to outside victim advocates for emotional support services related to sexual abuse and by providing, posting, and otherwise making accessible the mailing addresses and telephone numbers of local, State, or national victim advocacy or rape crisis organizations. This information, as well as Memoranda of Understanding (MOU’s) with local advocacy organizations, are posted on the agency website and have been verified by the auditor. Staff and administrators verify that the facility does inform residents, prior to giving them access to outside support services, the extent to which such communications will be monitored, and of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant Federal, State, or local law. The facility provides residents with reasonable and confidential access to their attorneys or other legal representation, as well as reasonable access to parents or legal guardians. Interviews with staff and residents confirm a belief that outside support is available. Residents interviewed state they feel safe and are convinced they could report anything without retaliation, and could use outside services if needed, and that they can have private visits. This was echoed in interviews with the Director, PREA Manager, and specialized staff, as well. JPTC is served by La Piñon Sexual Assault Recovery Services (LPSARS) of Las Cruces. The auditor verified LPSARS services with Gretchen Bolsins, who answered the LPSARS 24-hour Crisis Hotline: 575-526-3437. The SANE Unit is located at the Las Cruces Memorial Medical Center.

The agency provides methods to receive third-party reports of resident sexual abuse or sexual harassment. Policy clearly states any staff member is required to take complaints, and that complaints can be anonymous. Anyone can call the reporting line. In addition, the facility distributes information on how to report resident sexual abuse or sexual harassment on behalf of residents by posting notices and posters in public areas. Also, the CYFD agency website explains ways to report, and provides methods to report.

This discussion must also include corrective action recommendations where the facility does not meet the standard. It is required that all staff report immediately, and according to agency policy, any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred. Policy also requires the reporting of any retaliation against residents or staff who reported such an incident, as well as any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The agency requires all staff to comply with any applicable mandatory child abuse reporting laws, as well as reports, as (and when) appropriate, to licensing agencies and Adult Protective Services. Apart from reporting to designated supervisors or officials and designated State or local service agencies, agency policy prohibits staff from revealing any information related to a sexual abuse report to anyone, other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters and are required to inform residents at the initiation of services of their duty to report and of the limitations of confidentiality. Upon receiving any allegation of sexual abuse, the facility promptly reports the allegation to the appropriate agency office and to the alleged victim’s parents or legal guardians, unless the facility has official documentation showing the parents or legal guardians should not be notified. If the alleged victim is under the guardianship of the child welfare system, the report will be made to the alleged victim’s caseworker, instead of to the parents or legal guardians. If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee will also report the allegation to the juvenile’s attorney or other legal representative of record within 14 days of receiving the allegation. Interviews with administrators, and a review of applicable policy, indicate compliance with this standard.

The agency has a policy to protect all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff. The agency designates Eugene Brewster and Adam Chavez with making sure retaliation is properly monitored for at JPTC. The agency monitors the conduct or treatment of residents or staff who reported sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by residents or staff. This includes status checks for residents. The agency monitors the conduct or treatment for at least 90 days and longer if needed and acts promptly to remedy any such retaliation. There have been no reports of retaliation in the past 12 months. Monitoring includes any resident disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The auditor reviewed the documentation of these efforts. In an abundance of caution, retaliation monitoring at JPTC also includes when alleged victims, witnesses, and reporters leave and return from passes. They try to do the monitoring at least every 7 to 10 days.

CYFD has a policy that residents who allege to have suffered sexual abuse may only be placed in isolation as a last resort. The facility policy requires that residents who are placed in isolation, because they allege to have suffered sexual abuse, have access to legally required educational programming, special education services, and daily large-muscle exercise. In the past 12 months, no residents have been isolated or segregated for their protection. This is according to interviews conducted and reports reviewed. Since JPTC does not have segregation, they would have to utilize room confinement protocols to provide this type of protection.

Although criminal investigations are conducted by the State Police, CYFD has policy and procedure related to agency investigations. The agency does not terminate an investigation solely because the source of the allegation recants the allegation. Substantiated allegations of conduct that appear to be criminal are referred for prosecution. The agency retains all written reports pertaining to the administrative or criminal investigations of alleged sexual abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person’s status as resident or staff. No polygraphs are required. Investigations include an effort to
determine whether staff actions or failures to act contributed to the abuse. Such investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The departure of the alleged abuser or victim from the employment or control of the facility or agency does not provide a basis for terminating an investigation. When outside agencies investigate sexual abuse, the facility will cooperate with outside investigators and will endeavor to remain informed about the progress of the investigation. Verification of compliance with this standard was verified through a review of policy and through interviews with investigators and administrators. The auditor also reviewed investigations.

CYFD has a policy requiring that any resident who alleges that he or she suffered sexual abuse in the facility is notified as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation, and that the notification is documented. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the agency/facility has determined that the allegation is unfounded), whenever the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. Following a resident's allegation that he has been sexually abused by another resident, they will inform the alleged victim, when they learn that the alleged abuser has been indicted on a charge related to sexual abuse within the facility, or if they learn that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. Investigations conducted during the past 12 months were reviewed and complied with this standard.

Agency policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Agency policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. In the past 12 months, there have been no allegations regarding contractors or volunteers, so none have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of residents. The facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer. Compliance with this standard was verified through a review of policy, other documentation, and interviews with administrators.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding, or criminal finding, that the resident engaged in resident-on-resident sexual abuse. The facility offers therapy, counseling, or other interventions designed to address and correct
the underlying reasons or motivations for abuse, and the facility considers whether to require the offending resident to participate in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. Yet, access to general programming or education is not conditional on participation in such interventions. The agency disciplines residents for sexual contact with staff only upon finding that the staff member did not consent to such contact. The agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The agency prohibits all sexual activity between residents, but deems such activity to constitute sexual abuse only if it determines that the activity is coerced. Verification of compliance with this standard was based on a review of policy and interviews conducted, as well as a review of investigations.

According to agency policy and interviews conducted, resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The residents answered questions in such a way to show they believe they will be cared for, should something happen to them. Also, facility policies spell this out. The nature and scope of such services are to be determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff document the timeliness of emergency medical treatment and crisis intervention services provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning sexually transmitted infection prophylaxis. Resident victims of sexual abuse while incarcerated are offered timely information about and timely access to sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. Treatment services will be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with the investigation. Since all the residents at the facility are male, parts of this standard relating to female residents do not apply.

Facility Name – double click to change
The facility offers medical and mental health evaluations to all residents, but these services may not be offered onsite. They may be provided at other CYFD facilities or in the community. This includes medical and mental health evaluation and, as appropriate, treatment to all residents who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility, as required by this PREA standard. Resident victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections, as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. The facility attempts to conduct a mental health evaluation of all known resident-on-resident abusers within 60 days of learning of such history. However, interviews indicate these residents may ultimately have to be housed at other facilities. The evaluation and treatment of such victims includes, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The facility provides such victims with medical and mental health services consistent with the community level of care. All residents at JPTC are male, so parts of this standard relating to female residents do not apply. Compliance with this standard was verified through interviews and policy review. Policy 5.24 B Section 8.7 states, “If continued BH treatment is required for the client victim, BH clinicians will ensure that the client is cared for in-facility and/or transported to an external facility, as appropriate.”

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

According to policy, JPTC conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded. The agency and facility administrators verify that in the event of an investigation, the facility conducts a sexual abuse incident review within 30 days of the conclusion of the criminal or administrative sexual abuse investigation. They work together on these. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; considers whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; assesses the adequacy of staffing levels in that area during different shifts; assesses whether monitoring technology should be deployed or augmented to supplement supervision by staff; and prepares a report of its findings, including but not necessarily limited to determinations made pursuant to this section, and any recommendations for improvement, and submits such report to the facility head and PREA compliance manager. In addition, after OIG investigates, an exit staffing is conducted that includes a representative from the JJS Director’s office, the PREA Coordinator, and the Office of Quality Assurance (OQA) Director, considering a number of issues, to initiate any needed follow-up corrective actions. The CYFD Director of JJS, as well as JPTC Acting Superintendent, assured the auditor that these processes are taken very seriously by the agency, and the facility certainly implements the recommendations for improvement or documents its reasons for not doing so. The auditor’s review of investigations also verifies this review process is in place.

Data collected and aggregated pursuant to §115.387 is reviewed to improve the effectiveness of sexual abuse prevention, detection, and response by identifying problem areas; taking corrective actions; and preparing an annual report. The annual report includes a comparison of the current year's data and corrective actions with those from prior years, and it provides an assessment of the agency's progress at each facility, as well as the agency as a whole. The agency makes its annual report readily available to the public. The annual reports are approved by the agency head after redactions are made, which are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility. The auditor reviewed the CYFD Annual Report, available at https://cyfd.org/facilities/prison-rape-elimination-act-prea.

Although the agency did not begin PREA audits until 2016, they are compliant with this standard for PREA’s second three-year audit cycle, beginning in 2016. One-third of their facilities are being audited each year. They provided this auditor full access. Although they demonstrated full compliance with every standard audited, their officials showed-forward thinking ideas for remaining compliant in the years to come. For example, they are aware of the new PREA Auditor Handbook and perspectives it provides on the audit process and other standards.

The PREA standards require that a minimum of one-third of facilities be audited each year. Using PREA Reallocation Grant funds, CYFD JJS contracted with a Department of Justice Certified PREA Auditor to audit three JJS facilities in 2016: Camino Nuevo Youth Center - May 26-28; Albuquerque Boys Reintegration Center - July 11-12, and Albuquerque Girls Reintegration Center - July 13-14. All those reports are posted on the website, along with other information helpful in assisting the public in understanding PREA and the efforts underway to assure sexual safety. However, this is the first PREA audit of JPTC, so no previous audit report is posted.
