## Protective Services Initiatives

- To continue efforts ensuring timely response to reports of maltreatment, enhancing voluntary services to at risk families, providing safe homes for children in out-of-home care, and working with families to address the risk issues that contribute to child maltreatment
- To improve outcomes addressing the unique need of older youth in faster care in the areas of education, financial assistance and housing
- To enhance visitation with children in foster care through staff training, tracking mechanisms and quality assurance reviews
- To expand foster and adoptive family recruitment efforts to increasing the number of placement resources available for children needing homes
- To partner with the New Mexico Court Improvement Project and the courts to expedite permanency for children by reducing delays, minimizing the need for continuances, expediting appeals and enhancing the quality of representation
- To facilitate the active engagement of parents, foster parents and youth in case planning through Team Decision Making, adoption mediation, video conference and increasing the participation of incarcerated parents

### Child Welfare Performance & Accountability

In the 1990's the New Mexico Legislature developed an annual process for monitoring and measuring the accomplishments of state agencies. Each year when the legislature holds the winter session, measures are developed through a collaborative process between the agency and the Legislative Finance Council (LFC). Once the measures are established, they are published as a part of House Bill 2. House Bill 2 is the annual omnibus funding bill for state government.

Once finalized by the legislature and signed by the Governor, each agency is then responsible to meet their measures for the following state fiscal year (SFY), which is July 1<sup>st</sup> through June 30 of the subsequent year. Staff of the LFC is assigned to each agency and meet at least quarterly to review the "report card" for each agency's HB2 measures. This performance and accountability process serves as a collaborative means for the LFC and state agencies to identify issues early, work to target resources, and to anticipate and plan for future needs.

The CYFD - Protective Services has been given the following performance measures for SFY08:

Performance measures:

- (a) Output: Percent of children who are the subjects of substantiated maltreatment while in foster care.....No more than 0.57%
- (b) Outcome: Percent of children adopted within twenty-four months from entry into foster care.....At least 34.0%
- (c) Outcome: Percent of children who are the subjects of substantiated maltreatment within six months of a prior determination of substantiated maltreatment.....No more than 7.0%
- (a) Outcome: Percent of children reunified with their natural families in less than twelve months of entry into care.....At least 85.0%

Following is a table that supplies an overview of recent Protective Services scores and accomplishments for SFY2008. Note that House Bill 2 target measures have evolved over time; thus success, as measured in prior years, currently may be set at a different level.

 2. For the quarterly 360 Degrees County Profiles Report this information is calculated by annualizing the quarterly data. For the SFY Annual 360 Degrees County Profiles Report this information is calculated, based on four quarter of data.

**HOW ARE WE DOING?** By comparing "total Investigations" for the quarter with "accepted reports" for the quarter, you can get a **sense** of work flow. To get a further sense of work flow, also review the cases with a "pending over 30 days" status and the case weight information.

Note: Not all "accepted reports" result in investigations completed during the period under review.

1. Both County and Regional data are calculated as a % of the State's total investigations for the period under review.  
 2. For the quarterly 360 Degrees County Profiles Report this information is calculated by annualizing the quarterly data. For the SFY Annual 360 Degrees County Profiles Report this information is calculated, based on four quarter of data.

**HOW ARE WE DOING?** By comparing "total Investigations " for the quarter with "accepted reports" for the quarter, you can get a **sense** of work flow. To get a further sense of work flow, also review the cases with a "pending over 30 days" status and the case weight information.

Note: Not all "accepted reports" result in investigations completed during the period under review.

1. Both County and Regional data are calculated as a % of the State's total investigations for the period under review.  
 2. For the quarterly 360 Degrees County Profiles Report this information is calculated by annualizing the quarterly data. For the SFY Annual 360 Degrees County Profiles Report this information is calculated, based on four quarter of data.

**HOW ARE WE DOING?** By comparing "total Investigations" for the quarter with "accepted reports" for the quarter, you can get a **sense** of work flow. To get a further sense of work flow, also review the cases with a "pending over 30 days" status and the case weight information.
