SSL VPN Desktop Log-in Process

1. Search and click the key icon (only once) for the SSL VPN Agent.

2. After clicking the SSL VPN Agent button, look for the key with the red x in the upper menu of your screen and right click.

3. After right clicking the icon, click ‘Login’.

4. Your browser will open. Enter your UNM Net ID and password.

5. The Barracuda website will now show; enter your login credentials. After logging in, a warning message will prompt. Click ‘Yes’. Select Database to work in.
