About Protective Services

Protective Services strives to enhance the safety, permanency and well-being of children and families in New Mexico.

Protective Services workers investigate reports of child maltreatment and intervene to keep New Mexico's children safe. We provide foster care to approximately 2,500 children each day and work with families to enable parents to safely care for their children. When that cannot be accomplished, Protective Services workers find safe, permanent families for children through adoption or permanent guardianship.

Protective Services also works with youth emancipating from the foster care system to assist them in successfully transitioning into adulthood.

About the 360 Report

The 360 Report is published quarterly to provide CYFD management, staff, and external partners with data on:

- Reports of child abuse and neglect
- Investigations of child abuse and neglect
- Substantiated cases
- Permanency plans for youth in custody
- Plans for reunifications
- Number of youth in foster care

These data can be used to inform New Mexicans of trends in a particular area and where support may be needed. Data can also indicate positive outcomes in an aspect of the system in a particular county or region. The 360 Report is a tool that can bring science to inform the prevention and treatment process.

About the Data

Data for the County Profiles is prepared through the collaborative efforts of the Evaluation Unit and FACTS Unit within the Research, Evaluation, and Data Bureau and Information Technology Services, with the assistance and guidance of the U.S. Department of Health and Human Services, Administration For Children and Families, Administration on Children, Youth and Families, Children's Bureau.

The Research, Assessment & Data Bureau

The 360 Report is published by CYFD Protective Services Data Evaluation Unit within the RAD (Research Assessment & Data) Bureau.

Adoption and Foster Care Analysis and Reporting System (AFCARS) Permanency Measures

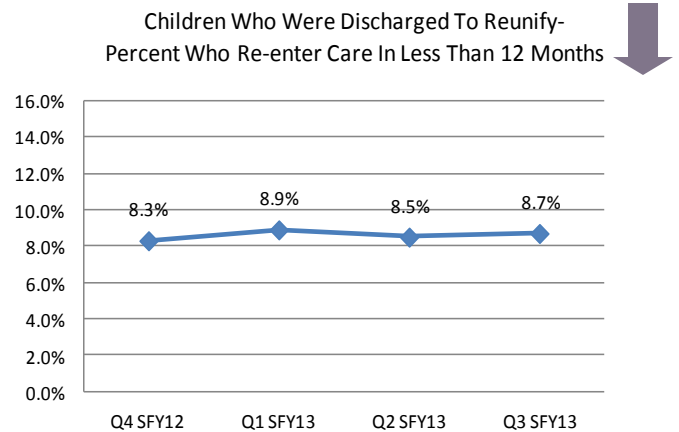

Children who grow up in safe, stable and permanent homes are more likely to maximize their potential and become productive and contributing members of society. They are less likely to have future justice system contact, substance abuse, mental health issues and homelessness. All children should have the opportunity for permanency and stability in their living situations.

Strategic Planning Measures: Of all children who were discharged from foster care to a finalized adoption during the target 12 month period listed above, the data indicates that 30.6 % were discharged in less than 24 months from the date of the latest

Strategic Planning Measures: Of all children in foster care for 8 days or longer who were discharged to reunification in the target 12 month period above, the data indicates that 66.7% were reunified in less than 12 months from the date of the latest removal from home.

Strategic Planning Measures: Of all children in foster care for 8 days or longer who were discharged to reunification in the 12 month period prior to the target 12 month period listed above, the data indicate that 8.7 percent re-entered foster care in less than 12 months from the date of discharge?

Neglect includes:

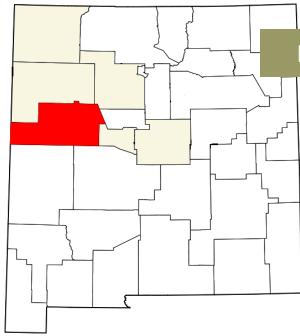

1. The abandonment of a child by a parent, guardian or custodian.
2. The failure of a parent, guardian or custodian to provide a child with proper parental care and control or subsistence, education, medical or other care or control necessary for the child's well being.
3. When a child is physically or sexually abused and the child's parent, guardian or custodian knew or should have known of the abuse and failed to take reasonable steps to protect the child from further harm.

4. Parental inability to discharge their responsibilities to and for the child because of parental incarceration, hospitalization, or physical or mental disorder or incapacity.
